Section 3	
<p>Briefly describe why this procurement is Sole Source and why there is only a single source available: This request is being made as a sole-source because this program, "Detection Equipment Operation and Maintenance Course", is the only one of its kind listed in the approved FEMA Domestic Preparedness Equipment Technical Assistance Program (DPETAP) catalog of training courses for discretionary use of Homeland Security Grant Program (HSGP)/Urban Area Security Initiative (UASI) funding, which will be the method of financing for this program. The FEMA DPETAP catalog lists only one unique program of each type, and these programs are vetted through a third-party for compliance with FEMA grant guidelines and curriculum design. 2008 HSGP guidance allows states to utilize their grant funding to support programs provided by FEMA and their federal training partners.</p>	
Duration of this Sole Source procurement: 12 months from date of request	
<p>Briefly describe the efforts made to seek other sources: There are no other vendors currently contracted with FEMA to provide this level of training.</p>
